

Timber Products has a longstanding reputation for manufacturing the highest quality commodity and industrial softwood plywood at our mill in Grants Pass, OR. Most of our softwood plywood uses veneer from trees grown and harvested on our own timberlands. Best of all, as a fully integrated company, we control the production process from start to finish.

Timber Products can provide the right grade, the right finish and the right specs for your softwood plywood needs. Our technology provides the greatest possible efficiencies while meeting demanding performance and environmental requirements. Timber Products is a member mill of the APA-The Engineered Wood Association. We offer plywood up to 5' wide and 10' long, in thicknesses ranging from 5/16" all the way up to 1-1/2".

Available Products

Sheathing

Softwood Plywood

Custom Cuts and Services

Our sanders and specialty glues allow us to fabricate panels for a wide range of performance requirements. We can even engineer panels to meet the unique and specific needs of individual customers—including panels up to 5' wide, 10' long and 1-1/2" thick. We also offer plug-and-touch sanding, full sanding and tongue-and-groove.

Certifications Available

- *Mark of Quality* from the APA-The Engineered Wood Association

Species

- Douglas Fir
- White Fir
- Pine

Adhesives

We manufacture PS-1 panels with a low-emitting phenolic glue line that is moisture resistant for outdoor applications. Softwood plywood is exempt from CARB and TSCA VI testing.

Shipping

- **TP Trucking** - We have our own trucking division with a fleet of more than 100 trucks. Our trucking division enables us to deliver your order on time and on budget.
- **Union Pacific Railroad** - Our softwood plywood facility is served by the Union Pacific.

Panel Sizes:

- Lengths: 8' thru 10'
- Widths: 4' thru 5'
- Thicknesses: 5/16" thru 1-1/2"

Featured Options

- **Oversize Panels** - Optimizes the efficiency of your project.
- **Plug-and-Touch Sanding** - Defects are plugged and the unit is then touch-sanded to create uniform thickness from panel to panel.
- **Full Sanding** - Full sanding up to 5' wide is available to guarantee uniform sizing and texture from panel to panel.
- **Tongue-and-Groove** - Panels with tongue-and-groove join seamlessly together creating a single flat surface for a variety of applications.

Timber Products Company is one of the nation's largest and most respected manufacturers of a comprehensive range of wood products.

As an independently owned, fully integrated company with dedicated manufacturing facilities in both the western and eastern United States, we

provide immediate access to a vast selection of products and services. We've implemented new technologies to make our operations more efficient and our products more cost-effective. We can respond to your needs faster, with greater flexibility and with an absolute assurance of quality.
