

# Hardwood Lumber

## DESCRIPTION

Timber Products is one of the leading producers of high-quality hardwood lumber. Our fully integrated facility includes a sawmill, kilns, planer and dimension mill, allowing us to control the entire process from stump to ready-to-use components.

We produce ripped-to-width and cut-to-size components, including ready-to-use defected moulder blanks for a range of manufacturing needs. Our advanced systems, including three MiCROTEC Woodeye scanners, help improve yield, reduce waste and deliver consistent quality with every order. Our lumber components are used across a wide range of applications, with each order crafted to meet exact specifications and improve operational efficiency, so our customers can stay focused on what they do best.

## APPLICATIONS

- Cabinetry (stile and rail blanks, solid door panel parts, face frames)
- Moulding blanks
- Flooring
- Furniture
- Doors

## THE BENEFITS OF USING OUR HARDWOOD LUMBER:

- Increase your production
